

Role: Photographer Team Leader

Responsible to: Media Manager

Responsible For: Photographers

The role of the photography team leader is to ensure that the photographers are clear on what is expected from them. Images will also be given to you to process, this includes editing as and where you see fit as well as add the Marra & Scout Branding.

It is also desirable that photographer team leader takes photos of their own, should the workload be too great or not enough photographers are available.

All images are to be stored in a central location (Such as Google Drive / SharePoint) and are to have the final seal of approval by the Media Manager before being published after the event.
